## Introduction

Law enforcement officers across the nation have been losing their lives for years due to assaults, accidents, stress, and other work related incidents.

Many law enforcement officers, including corrections and security personnel are learning that to protect themselves from this epidemic, they must start to take preventative and defensive actions. All they needed was some help.

That's where the Online Police Academy and Edge Advantage Consultants comes in!

In 1998 after seeing more and more law enforcement officers' names being added to the Washington D.C. National Law Enforcement Officers Memorial wall, Edge Advantage Consultants decided to offer their education, experience and vast knowledge to the Online Police Academy to assist officers in protecting themselves from work related violence, injury, and death. The motivation is to keep officers safe and secure and to keep them coming home at the end of their shifts.

The **Officer Safety, Security and Survival** course, as well as other vital Online Police Academy courses, are available for all law enforcement departments and personnel including; city, county and state police, as well as security departments, jail personnel and anyone going into the criminal justice field.
